## AUDIO

Note: I would hope to consider the AUDIO level of the announcer (beginning) at 6:18 to be the standard sound level.

Hence, I make the following comments about our greenscreen Newsman –

The Newsman audio

beginning 0:30 should be louder

beginning 0:42 should be louder

beginning 4:28 should be louder

beginning 6:48 should be louder

beginning 8:48 should be louder

## ON SCREEN

0:30 Lettering on top screen should be larger

0:30 Lettering -- S: GORKA COULD BE NEXT TO

*could be changed to*  
TAIWAN NOT PART OF PRC

0:31 Lettering -- -ELECT TRUMP COULD CHANGE "ONE CHINA  
*could be changed to (as many letters as will fit)*  
TRUMP MAY ORDER TILLERSON TO ENFORCE

0:32 Chinese characters on yellow background  
[ REFERENCE: yellow-item.jpg ]  
*could be changed to*  
(Use graphic -- ) TW-legal.png

0:38 Chinese lettering on top of screen should be larger

0:38 Video box of Colin Powell should have Mr. Powell more CENTERED  
REMOVE CONFERENCE  
*Lettering would be best to say --*  
TAIWAN SUMMIT

0:39 to 0:41 As final pictures appear on the right side, some stars can shoot  
out from behind these pictures  
(See mock-up graphic -- ) starry-item.jpg

before 0:42 (**before** Newsman says "After reviewing" and **before** yellow  
Chinese graphic comes on the screen)

Insert THN studio shot ( *similar to* THN-backgrORIG.jpg )

and then quickly overlay with English language lettering on the  
screen –

There are many important dates in recent Taiwan history,  
when momentous events occurred. We must have a  
comprehensive recognition of the “meaning” and “significance”  
of those events, in order to understand Taiwan’s international  
legal position in the world today.

This can roll-up on the screen.

**FOR and appropriate English language lettering style (including  
typeface/typefont and size), see the sample here --**

Lettering-sample.jpg

then follow this with the Chinese (translation) blue graphic overlay –  
text02-01over.jpg

which will be centered on the screen, to look similar to –  
THN-backgrCHTEXT.jpg

The yellow Chinese graphic on screen (currently at 0:44) can be allowed to  
ROLL UP on the screen,

*hence does not* have to "disappear" (as Mabo has now at approx. 0:46)

3:19 English language graphic on screen here can stay on the screen  
slightly longer

4:28 Background should be -- (*similar to*)

THN-backgr-RGT.jpg

[ Newsman is on right side of screen ]

So, on "big screen" first show Gen-Ord-Hea-CH.png  
(which is the Chinese translation of "General Order #1")

Then show the Chinese translation (of the relevant text from General  
Order No. 1, which involves Taiwan.) That would be –  
Gen-OrderText03.png

**REFERENCE graphic** -- THN-backgr-Lplace.jpg

And, after the viewers have had enough time to read this  
Chinese data, then

show black-CKS.jpg (briefly) [full screen] (this graphic serves as a  
"transition")

4:42 Newsman (says): Now let's look at "Chinese Disinformation" regarding the significance of the Oct. 25, 1945 surrender ceremonies.

[ Newsman should be on right of screen, Chinese graphic images are displayed on News-Screen on left side, ]

**REFERENCE graphic:** -- THN-backgrCH7-Nplace.jpg

(Note: At this point in the video, the Newsman is explaining this in English, hence this graphic is in Chinese only)

After this,

Show –

Oct25.jpg (briefly) [full screen]      *(this graphic serves as a “transition”)*

Then,

Show newsman and with lettering on News-screen

( first show the English lettering, then display the Chinese lettering )

English and Chinese **graphic REFERENCE** -- THN-backgr8-NMOD-1.jpg

6:48 (Current content here should be moved -- should be moved to Before the current content at 8:48

6:48 [ Correct content for here is -- ]

Show newsman and with lettering on News-screen

( first show the English lettering, then display the Chinese lettering )

English and Chinese **graphic REFERENCE** -- THN-backgr8-NMOD-2.jpg

[ Newsman should be on right of screen ]

Newsman (on screen) says: Here is Item number 2

==== [www.youtube.com/watch?v=6gD8CPLzVP4](http://www.youtube.com/watch?v=6gD8CPLzVP4) =====

**Before the current content** at 8:48

Background should changed to be -- ( *similar to* )

THN-backgrCENTER.jpg

[ As you can see, the Newsman is in the center of the screen ]

[ **Chinese subtitles** of the following should be shown in a moving  
“one strip” of characters across the bottom of the screen. ]

Newsman says: We offer the following advice to Taiwanese people who are interested in human rights. You should definitely contact members of the United States’ Congress and their staff, and make sure that they take time to view this video.

Now at 8:48,

[ **Chinese subtitles** of the following should be shown in a moving  
“one strip” of characters across the bottom of the screen. ]

Newsman says: Everyone should be in full agreement that in order to deal with Taiwan relations in the most appropriate manner, US government officials need to be fully aware of the truth of Taiwan's international legal status.

9:05 Before showing US Capitol Bldg., please insert  
blue-stars-backgrTW2.jpg for 0.80 seconds  
then dissolve into blue-stars-backgrTW3.jpg for 2.0 seconds

(then show Capitol Bldg.)

===== NOTES 1 =====

Our goal for the length is now approx. 8 minutes and 30 seconds

But if absolutely necessary, we can go to within 9 minutes and 30 seconds

===== NOTES 2 =====

Hence, I am not sure what instructions to give Mabo regarding how to change  
the designation of **7** in the opening titles sequence

But here are my thoughts.

If we are over 8 minutes, then please see –  
Eng-Chi-title8.jpg

If we are over 9 minutes, then please see –  
Eng-Chi-title9.jpg

My idea here is that on the screen, the “number” would originally  
appear as BLANK for 0.5 seconds or so, and then the appropriate number  
would quickly be inserted.

I have made these numbers in ORANGE, which should be a nice contrast.  
If you think some other color is preferable, you may make the change.

===== NOTES 3 =====

For EXAMPLE of Chinese characters on the bottom of the screen,  
moving in “one strip”, see --

<https://www.youtube.com/watch?v=s316phSZaRY>

However, I note that the moving “one strip” of characters is (ideally)  
the SIZE of the larger line (at the bottom of the screen) in this video,  
and also at that same LOCATION (HEIGHT) on the screen.

**Graphic REFERENCE** -- moving-chars.jpg

But whatever, . . . . . you can get a good idea of the proper SPEED  
for the characters to move by viewing several seconds of this video.
